

# Pillar

Pillar is strong and unyielding, ideal for a range of residential and commercial settings. The collection uses a cattle rail extrusion—an archetypically Australian object—as an elegant table system that is both modest and confident. Designed for both indoor and outdoor use, Pillar raises the bar for functional flexibility.

# Pillar

## Information

### Design

Alexander Lotersztain, 2021

### Environment

Indoor

### Warranty

5 year structural

### Certifications

GECA certified

### Materials

Powder coated mild steel frame with power coated mild steel or solid timber legs. Table tops constructed of veneered MDF, laminated structural board with matching ABS edge or compact laminate.

### Notes

1. Power and data integration available.
2. Pillar can be used outdoors by applying a zinc undercoat before powder coating. Only compact laminate tops are suitable for outdoor use.
