Comfort and ergonomic support
at an attainable price

Performance

Verus's built-in sacral reinforcement keeps the spine properly aligned, and options for adjustable lumbar support add comfort and stability for total spinal support. Verus's TriFlex™ back option offers ergonomic performance with even more durability: engineered flex patterning made from easy-to-clean polymer defines three ergonomic zones—sacral and lower lumbar, centerline spine, and upper scapula—to form, ventilate, and move with your body for a strong, comfortable fit.

Design

Verus has a versatile design that flexes easily to any workplace aesthetic. Its quiet form comes in a range of colors and fabrics and includes the option for a suspension, upholstered, or TriFlex back.

Verus's TriFlex back option is made from durable, easy-to-clean polymer that excels in any work environment—office, learning, or healthcare.

Verus

Verus redefines what an affordable work chair can be. Engineered to assure ergonomic alignment and support, it gives people both short-term and long-term comfort at an equally comfortable price. And with a quiet, versatile form, it flexes easily to any aesthetic.

Verus is guaranteed to work as hard as the people who use it: manufactured to our highest quality standards, Verus is backed by a 12-year, three-shift warranty.

Verus's built-in ergonomic support comes in three different back options: TriFlex, suspension, or upholstered.
