

Goldsworthy

Double Happy series

2023

Double Happy is for the child in us; toy-like in construction, a meme of the modern stool.

SITTING

Double Happy is a collection of stools in three heights made from turned American ash and cast bronze. The simple geometry is complemented by subtle detailing, its weighty materials offering a sturdy, comfortable seat that will endure for generations.

The bar and kitchen variants came into being with a decision to treat the footrest like the threshold of a good hotel. A solid bronze ring anchors the stool, promising to shine with age and use.

Double Happy

A bold, substantial seat for daily use. The cast bronze ring anchors four American ash legs to the wide, contoured seat.

Material	Colour	Size			Price + gst	
		Height	Width	Length	natural	Purple
American ash bronze		470	360	360	560	590
		660	360	360	960	1,050
		750	360	360	1,090	1,150
