

# RIPPLE THROW

**MARGRETHE ODGAARD ON THE DESIGN** "From a distance, the Ripple Throw looks monotone, but at close range, an optic ripple pattern appears and changes according to its drape and movement. I wanted to create a throw that would feel like a second skin in a casual and elegant way. The airy structure is visually compelling, and I discovered that the air between the fibers form a heat-protective membrane. The result is a soft and warm throw that will keep your eyes intrigued because of its many nuances."
