

# SPLIT TABLE

**STAFFAN HOLM ON THE DESIGN** “I wanted the table to have an organic expression and to combine a structural solidity with a seemingly more delicate balancing act. The detail of the legs being split and bent has the expression and quality of a skilled cabinet-maker and is likely to become a hallmark of the Split Table.”

## ABOUT THE DESIGNER

Staffan Holm is a Swedish designer based in Gothenburg, Sweden, working with interior architecture, industrial design and furniture design. His work has a strong focus on quality and craftsmanship combined with a human aspect. His designs have recently won several prestigious design awards around Scandinavia.

## CATEGORY

Multi functional table

## ENVIRONMENT

Indoor

## COUNTRY OF PRODUCTION

Slovenia

## PREASSEMBLED

No

## DESCRIPTION

Solid oak table for private or professional use for dining, restaurants, meetings etc. Please note that Split Table is not available in Japan, China, Korea, Hong Kong, Taiwan, India and Southeast Asia.

## PRODUCTION PROCESS

Tabletop is solid full-length oak wood glued together, legs are assembled of solid cnc-milled wood pieces. The table is treated with a hardening oil. The table is flat-packed and assembled with screws and brackets.

## MATERIAL

Solid oak

## CLEANING AND CARE

Clean often and carefully with a soft and dry cloth following the grain pattern. Periodically, clean with moist cloth. For long term care, it is recommended that the table top is treated 2-3 times a year with special oak wood oil on both top and bottom of table top that assists with making the wood resistant to stains and fluids. The wood should not be exposed to excessive humidity, heat or direct sun light.
